November 17, 2010 Updated for 11-12 School Year

I. LEADERSHIP

School Leadership: *Leaders have a primary role in teaching students to be civil to one another and promoting understanding and respect for diversity and difference. Leadership is responsible for setting priorities, continually monitoring and annually reviewing the plan for compliance and necessary changes and for staying up-to-date with current research on ways to prevent and effectively respond to bullying. It is also the responsibility of leaders to involve representatives from the greater school and local community in developing and implementing the Plan. To this end, the following Athol-Royalston Regional School District (ARRSD) Bullying Prevention and Intervention Plan has been drafted.*

A. Public involvement in developing the Plan.

As required by M.G.L. c. 71, § 37O, the Plan must be developed in consultation with teachers, school staff, professional support personnel, school volunteers, administrators, community representatives, local law enforcement agencies, students, parents, and guardians. Consultation must include, at a minimum, notice and a public comment period before the Plan is adopted by the school committee or equivalent authority.

B. Calendar of Meetings

The following calendar reflects the involvement of all constituencies in the process of creating the initial Plan for the Athol-Royalston Regional School District. Careful consideration has been made to be sure all parties are included in development of the Plan.

C. Assessing needs and resources.

This Plan is the Athol Royalston Regional School District's blueprint for enhancing capacity to prevent and respond to issues of bullying within the context of other healthy school climate initiatives. As part of the planning process, school leaders, with input from families and staff, will assess the adequacy of current programs; review current policies and procedures; review available data on bullying and behavioral incidents; and assess available resources including curricula, training programs, and behavioral health services. This “mapping” process will assist schools in identifying resource gaps and the most significant areas of need. Based on these findings, schools and districts will revise or develop policies and procedures; establish partnerships with community agencies, including law enforcement; and set priorities.

See Appendix A: “Inventory of PK-12 and school-community programs on bullying intervention October 27, 2010”.

Using student, school and community data periodic meetings will be convened at least on an annual basis by district level administration and/or by specific school administrators inviting constituencies to consider one or all the following: 1) surveys of students, staff, parents, and guardians on school climate and school safety issues; 2) building-specific data on the prevalence and characteristics of bullying (e.g., focusing on identifying vulnerable populations and “hot spots” in school buildings, on school grounds, or on school buses; 3) review of current and new programs and evaluating their effectiveness. This information will help to identify patterns of behaviors and areas of concern, and will inform decision-making for prevention strategies including, but not limited to, adult supervision, professional development, age-appropriate curricula, and in-school support services.

Note: data resources for district schools include,

- 1. X2 database for all students regarding discipline referrals**
- 2. Youth risk behavior survey**
- 3. Department of Elementary and Secondary Education (DESE) School Safety and Discipline Report**

II. TRAINING AND PROFESSIONAL DEVELOPMENT

A. Annual staff training on the Plan.

Annual training for all school staff, faculty and related service providers as itemized below on the Plan will include 1.) staff duties under the Plan, 2.)an overview of the steps that the principal or designee will follow upon receipt of a report of bullying or retaliation, and 3.)an overview of the bullying prevention curricula to be offered at all grades throughout the school or district. Staff members hired after the start of the school year are required to participate in school-based training during the school year in which they are hired, unless they can demonstrate participation in an acceptable and comparable program within the last two years.

III. ACCESS TO RESOURCES AND SERVICES

A key aspect of promoting positive school climates is ensuring that the underlying emotional needs of targets, aggressors, families, and others are addressed.

- A. Identifying resources. The following listings itemize school administration and counseling resources for each building. **APPENDIX C: Directory of Administrators and Counselors.**

The following resources identify PK-12 map of programs and curricula.
APPENDIX D: PK-12 District and Community Map of Bullying Intervention and Prevention Programs.

- B. Counseling and other services.

The following resources provide a listing of Community Service Agencies (CSAs) for Medicaid eligible students. Guidance and school adjustment counselors will assist parents and families in locating the appropriate agency. **APPENDIX E: Directory of Service Providers**

Guidance and school adjustment counselors shall assist principals in developing safety plans for students who have been targets of bullying or retaliation, providing social skills programs to prevent bullying, and offering education and/or intervention services for students exhibiting bullying behaviors.

Students and families needing the assistance of cultural and linguistic resources will be identified by the school principal and provided appropriate assistance.

- C. Students with disabilities. As required by M.G.L. c. 71B, § 3, as amended by Chapter 92 of the Acts of 2010, when the IEP Team determines the student has a disability that affects social skills development or the student may participate in or is vulnerable to bullying, harassment, or teasing because of his/her disability, the Team will consider what should be included in the IEP to develop the student's skills and proficiencies to avoid and respond to bullying, harassment, and/or teasing.
- D. Referral to outside services. Principals and guidance will refer students and families to outside services as part of the bullying intervention process.

IV. ACADEMIC AND NON-ACADEMIC ACTIVITIES

- A. Specific bullying prevention approaches. Bullying prevention curricula will be informed by current research which, among other things, emphasizes the following approaches:

Athol-Royalston Regional School
District Bullying Prevention and Intervention Plan **Adopted:**
November 17, 2010 Updated for 11-12 School Year

- using scripts and role plays to develop skills;
- empowering students to take action by knowing what to do when they witness other students engaged in acts of bullying or retaliation, including seeking adult assistance;
- helping students understand the dynamics of bullying and cyberbullying, including the underlying power imbalance;
- emphasizing cybersafety, including safe and appropriate use of electronic communication technologies;
- enhancing students' skills for engaging in healthy relationships and respectful communications; and
- engaging students in a safe, supportive school environment that is respectful of diversity and difference.

Initiatives will also teach students about the student-related sections of the Bullying Prevention and Intervention Plan. The school will review the Plan on an annual basis with students.

B. General teaching approaches that support bullying prevention efforts. The following approaches are integral to establishing a safe and supportive school environment. These underscore the importance of our bullying intervention and prevention initiatives:

- setting clear expectations for students and establishing school and classroom routines
- creating safe school and classroom environments for all students, including for students with disabilities, lesbian, gay, bisexual, transgender, and homeless students
- using appropriate and positive responses and reinforcement, even when students require discipline
- using positive behavioral supports
- encouraging adults to develop positive relationships with students
- modeling, teaching, and rewarding pro-social, healthy, and respectful behaviors
- using positive approaches to behavioral health, including collaborative problem-solving, conflict resolution training, teamwork, and positive behavioral supports that aid in social and emotional development
- using the Internet safely
- supporting students' interest and participation in non-academic and extracurricular activities, particularly in their areas of strength

V. POLICIES AND PROCEDURES FOR REPORTING AND RESPONDING TO BULLYING AND RETALIATION

A. Reporting bullying or retaliation. Reports of bullying or retaliation may be made by staff, students, parents or guardians, or others, and may be oral or written. Oral reports made by or to a staff member shall be recorded in writing. A school or district staff member is required to report immediately to the principal or designee any instance of bullying or retaliation the staff member becomes aware of or witnesses. Reports made by students, parents or guardians, or other individuals who are not school or district staff members, may be made anonymously. The school or district will make a variety of reporting resources available to the school community including, but not limited to, an Incident Reporting Form, a voicemail box, a dedicated mailing address, and an email address. **APPENDIX F: Incident Reporting Form.**

Athol-Royalston Regional School
District Bullying Prevention and Intervention Plan **Adopted:**
November 17, 2010 Updated for 11-12 School Year

- B. Use of an Incident Reporting Form is not required as a condition of making a report. The school will: 1) include a copy of the Incident Reporting Form in the beginning of the year packets for students and parents or guardians; 2) make it available in the school's main office, the counseling office, the school nurse's office, and other locations determined by the principal or designee; and 3) post it on the school's website. The Incident Reporting Form will be made available in the most prevalent language(s) of origin of students and parents or guardians.

At the beginning of each school year, the school or district will provide the school community, including administrators, staff, students, and parents or guardians, with written notice of its policies for reporting acts of bullying and retaliation. A description of the reporting procedures and resources, including the name and contact information of the principal or designee, will be incorporated in student and staff handbooks, on the school or district website, and in information about the Plan that is made available to parents or guardians.

1. Reporting by Staff

A staff member will report immediately to the principal or designee when he/she witnesses or becomes aware of conduct that may be bullying or retaliation. The requirement to report to the principal or designee does not limit the authority of the staff member to respond to behavioral or disciplinary incidents consistent with school or district policies and procedures for behavior management and discipline.

2. Reporting by Students, Parents or Guardians, and Others

The school or district expects students, parents or guardians, and others who witness or become aware of an instance of bullying or retaliation involving a student to report it to the principal or designee. Reports may be made anonymously, but no disciplinary action will be taken against an alleged aggressor solely on the basis of an anonymous report. Students, parents or guardians, and others may request assistance from a staff member to complete a written report. Students will be provided practical, safe, private and age-appropriate ways to report and discuss an incident of bullying with a staff member, or with the principal or designee.

C. Responding to a report of bullying or retaliation.

1. Safety

Before fully investigating the allegations of bullying or retaliation, the principal or designee will take steps to assess the need to restore a sense of safety to the alleged target and/or to protect the alleged target from possible further incidents. Responses to promote safety may include, but not be limited to, creating a personal safety plan; pre-determining seating arrangements for the target and/or the aggressor in the classroom, at lunch, or on the bus; identifying a staff member who will act as a "safe person" for the target; and altering the aggressor's schedule and access to the target. The principal or designee will take additional steps to promote safety during the course of and after the investigation, as necessary.

Athol-Royalston Regional School
District Bullying Prevention and Intervention Plan **Adopted:**
November 17, 2010 Updated for 11-12 School Year

The principal or designee will implement appropriate strategies for protecting from bullying or retaliation a student who has reported bullying or retaliation, a student who has witnessed bullying or retaliation, a student who provides information during an investigation, or a student who has reliable information about a reported act of bullying or retaliation.

2. **Obligations to Notify Others**

- a. **Notice to parents or guardians.** Upon determining that bullying or retaliation has occurred, the principal or designee will promptly notify the parents or guardians of the target and the aggressor of this, and of the procedures for responding to it. There may be circumstances in which the principal or designee contacts parents or guardians prior to any investigation. Notice will be consistent with state regulations at 603 CMR 49.00.
- b. **Notice to Another School or District.** If the reported incident involves students from more than one school district, charter school, non-public school, approved private special education day or residential school, or collaborative school, the principal or designee first informed of the incident will promptly notify by telephone the principal or designee of the other school(s) of the incident so that each school may take appropriate action. All communications will be in accordance with state and federal privacy laws and regulations, and 603 CMR 49.00.
- c. **Notice to Law Enforcement.** At any point after receiving a report of bullying or retaliation, including after an investigation, if the principal or designee has a reasonable basis to believe that criminal charges may be pursued against the aggressor, the principal will notify the local law enforcement agency. Notice will be consistent with the requirements of 603 CMR 49.00 and locally established agreements with the local law enforcement agency. Also, if an incident occurs on school grounds and involves a former student under the age of 21 who is no longer enrolled in school, the principal or designee shall contact the local law enforcement agency if he or she has a reasonable basis to believe that criminal charges may be pursued against the aggressor.

In making this determination, the principal will, consistent with the Plan and with applicable school or district policies and procedures, consult with the school resource officer, if any, and other individuals the principal or designee deems appropriate.

- D. **Investigation.** The principal or designee will investigate promptly all reports of bullying or retaliation and, in doing so, will consider all available information known, including the nature of the allegation(s) and the ages of the students involved.

During the investigation the principal or designee will, among other things, interview students, staff, witnesses, parents or guardians, and others as necessary. The principal or designee will remind the alleged aggressor, target, and witnesses that retaliation is strictly prohibited and will result in disciplinary action.

Athol-Royalston Regional School
District Bullying Prevention and Intervention Plan **Adopted:**
November 17, 2010 Updated for 11-12 School Year

Interviews may be conducted by the principal or designee, other staff members as determined by the principal or designee, and in consultation with the school counselor, as appropriate. To the extent practicable, and given his/her obligation to investigate and address the matter, the principal or designee will maintain confidentiality during the investigative process. The principal or designee will maintain a written record of the investigation.

Procedures for investigating reports of bullying and retaliation will be consistent with school or district policies and procedures for investigations. If necessary, the principal or designee will consult with legal counsel about the investigation. (Align this with school or district procedures.)

- E. Determinations. The principal or designee will make a determination based upon all of the facts and circumstances. If, after investigation, bullying or retaliation is substantiated, the principal or designee will take steps reasonably calculated to prevent recurrence and to ensure that the target is not restricted in participating in school or in benefiting from school activities. The principal or designee will: 1) determine what remedial action is required, if any, and 2) determine what responsive actions and/or disciplinary action is necessary.

Depending upon the circumstances, the principal or designee may choose to consult with the students' teacher(s) and/or school counselor, and the target's or aggressor's parents or guardians, to identify any underlying social or emotional issue(s) that may have contributed to the bullying behavior and to assess the level of need for additional social skills development.

The principal or designee will promptly notify the parents or guardians of the target and the aggressor about the results of the investigation and, if bullying or retaliation is found, what action is being taken to prevent further acts of bullying or retaliation. All notice to parents must comply with applicable state and federal privacy laws and regulations. Because of the legal requirements regarding the confidentiality of student records, the principal or designee cannot report specific information to the target's parent or guardian about the disciplinary action taken unless it involves a "stay away" order or other directive that the target must be aware of in order to report violations.

- E. Responses to Bullying.

1. Teaching Appropriate Behavior Through Skills-building

Upon the principal or designee determining that bullying or retaliation has occurred, the law requires that the school or district use a range of responses that balance the need for accountability with the need to teach appropriate behavior. M.G.L. c. 71, § 37O(d)(v). Skill-building approaches that the principal or designee may consider include:

- offering individualized skill-building sessions based on the school's/district's anti-bullying curricula;
- providing relevant educational activities for individual students or groups of students, in consultation with guidance counselors and other appropriate school personnel;
- implementing a range of academic and nonacademic positive behavioral supports to help students understand pro-social ways to achieve their goals;

Athol-Royalston Regional School
District Bullying Prevention and Intervention Plan **Adopted:**
November 17, 2010 Updated for 11-12 School Year

- meeting with parents and guardians to engage parental support and to reinforce the anti-bullying curricula and social skills building activities at home;
- adopting behavioral plans to include a focus on developing specific social skills; and
- making a referral for evaluation.

2. Taking Disciplinary Action

If the principal or designee decides that disciplinary action is appropriate, the disciplinary action will be determined on the basis of facts found by the principal or designee, including the nature of the conduct, the age of the student(s) involved, and the need to balance accountability with the teaching of appropriate behavior. Discipline will be consistent with the Plan and with the school's or district's code of conduct as found in student handbooks.

Discipline procedures for students with disabilities are governed by the federal Individuals with Disabilities Education Improvement Act (IDEA), which should be read in cooperation with state laws regarding student discipline.

If the principal or designee determines that a student knowingly made a false allegation of bullying or retaliation, that student may be subject to disciplinary action.

3. Promoting Safety for the Target and Others

The principal or designee will consider what adjustments, if any, are needed in the school environment to enhance the target's sense of safety and that of others as well. One strategy that the principal or designee may use is to increase adult supervision at transition times and in locations where bullying is known to have occurred or is likely to occur.

Within a reasonable period of time following the determination and the ordering of remedial and/or disciplinary action, the principal or designee will contact the target to determine whether there has been a recurrence of the prohibited conduct and whether additional supportive measures are needed. If so, the principal or designee will work with appropriate school staff to implement them immediately.

VI. COLLABORATION WITH FAMILIES

- A. Parent education and resources. The school or district will offer education programs for parents and guardians that are focused on the parental components of the anti-bullying curricula and any social competency curricula used by the district or school. The programs will be offered in collaboration with the PTO, PTA, PTG, School Councils, Special Education Parent Advisory Council, or similar organizations.
- B. Notification requirements. Each year the school or district will inform parents or guardians of enrolled students about the anti-bullying curricula that are being used. This notice will include information about the dynamics of bullying, including cyberbullying and online safety. The school or district will send parents written notice each year about the student-related sections of the Plan and the school's or district's Internet safety policy. All notices and information made available to parents or guardians will be in hard copy and electronic formats, and will be available in the language(s) most prevalent

Athol-Royalston Regional School
District Bullying Prevention and Intervention Plan **Adopted:**
November 17, 2010 Updated for 11-12 School Year

among parents or guardians. The school or district will post the Plan and related information on its website.

VII. PROHIBITION AGAINST BULLYING AND RETALIATION.

Acts of bullying, which include cyberbullying, are prohibited:

- (i) on school grounds and property immediately adjacent to school grounds, at a school-sponsored or school-related activity, function, or program whether on or off school grounds, at a school bus stop, on a school bus or other vehicle owned, leased, or used by a school district or school; or through the use of technology or an electronic device owned, leased, or used by a school district or school, and
- (ii) at a location, activity, function, or program that is not school-related through the use of technology or an electronic device that is not owned, leased, or used by a school district or school, if the acts create a hostile environment at school for the target or witnesses, infringe on their rights at school, or materially and substantially disrupt the education process or the orderly operation of a school.

Retaliation against a person who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying is also prohibited.

As stated in M.G.L. c. 71, § 37O, nothing in this Plan requires the district or school to staff any non-school related activities, functions, or programs.

VIII. DEFINITIONS

Aggressor is a student who engages in bullying, cyberbullying, or retaliation.

Bullying, as defined in M.G.L. c. 71, § 37O, is the repeated use by one or more students of a written, verbal, or electronic expression or a physical act or gesture or any combination thereof, directed at a target that:

- i. causes physical or emotional harm to the target or damage to the target's property;
- ii. places the target in reasonable fear of harm to himself or herself or of damage to his or her property;
- iii. creates a hostile environment at school for the target;
- iv. infringes on the rights of the target at school; or
- v. materially and substantially disrupts the education process or the orderly operation of a school.

Cyberbullying, is bullying through the use of technology or electronic devices such as telephones, cell phones, computers, and the Internet. It includes, but is not limited to, email, instant messages, text messages, and Internet postings. See M.G.L. c. 71, § 37O for the legal definition of cyberbullying.

Hostile environment, as defined in M.G.L. c. 71, § 37O, is a situation in which bullying causes the school environment to be permeated with intimidation, ridicule, or insult that is sufficiently severe or pervasive to alter the conditions of a student's education.

Retaliation is any form of intimidation, reprisal, or harassment directed against a student who reports bullying, provides information during an investigation of bullying, or witnesses or has

reliable information about bullying.

IX. RELATIONSHIP TO OTHER LAWS

Consistent with state and federal laws, and the policies of the school or district, no person shall be discriminated against in admission to a public school of any town or in obtaining the advantages, privilege and courses of study of such public school on account of race, color, sex, religion, national origin, or sexual orientation. Nothing in the Plan prevents the school or district from taking action to remediate discrimination or harassment based on a person's membership in a legally protected category under local, state, or federal law, or school or district policies.

In addition, nothing in the Plan is designed or intended to limit the authority of the school or district to take disciplinary action or other action under M.G.L. c. 71, §§ 37H or 37H½, other applicable laws, or local school or district policies in response to violent, harmful, or disruptive behavior, regardless of whether the Plan covers the behavior.

Internet Use Policy

Overview

The Internet is an electronic communications network which provides vast, diverse and unique resources. Our goal in providing this service to teacher, staff and ultimately students, is to promote educational excellence in the Athol-Royalston Regional School District by facilitating resource sharing, innovation and communication.

With access to computers and people all over the world also comes the availability of material that may not be considered to be of educational value in the context of the school setting. There may be some material or individual communications which are not suitable for school-aged children. The Athol-Royalston Regional School District views information gathered from the Internet in the same manner as information gathered from other reference materials identified by the schools. Specifically, the district supports resources that will enhance the learning environment with directed guidance from the faculty and staff. Exploration and utilization of resources is encouraged. However, it is impossible to control all materials on a global network and an industrious user may discover inappropriate information.

In the schools, student access to, and use of, the Internet will be available through a school designated account and will be carried out at teacher direction and monitored as any other classroom activity. Training will be provided. Every school complies with the CIPA (Children's Internet Protection Act). The school district, however, cannot prevent the possibility that some users may access material that is not consistent with the educational mission, goals and policies of the school district.

Guidelines

Internet access is coordinated through a complex association of government agencies and regional networks. The operation of the Internet relies heavily on the proper conduct of the users, who must adhere to strict guidelines. The district staff has the right and obligation to monitor student Internet activities. Internet access is a privilege, not a right. It shall be the policy of the Athol-Royalston Regional School District that every student who uses the District's internet connection shall have on file, at each school that the student attends, the official "Athol-Royalston Regional School District Contract Regarding the Use of the Internet" which is signed and dated by both the student and a parent/guardian. The Principal of each school shall be responsible for adherence to this policy and place such contracts in the student's temporary file.

APPENDIX B: District wide Internet Safety Policies (p.2)

If a district user violates any of the acceptable use provisions outlined in this document, his/her account will be terminated and future access will be denied. Some violations may also constitute a criminal offense and may result in legal action. Any use violating these provisions, applicable state and federal laws, or posted classroom and district policies, is subject to loss of access privileges and any other district disciplinary options.

Appendix G: Bullying Vocabulary

Aggressor is a student who engages in bullying, cyberbullying, or retaliation.

Bullying, as defined in M.G.L. c. 71, § 37O, is the repeated use by one or more students of a written, verbal, or electronic expression or a physical act or gesture or any combination thereof, directed at a target that:

- i. causes physical or emotional harm to the target or damage to the target's property;
- ii. places the target in reasonable fear of harm to himself or herself or of damage to his or her property;
- iii. creates a hostile environment at school for the target;
- iv. infringes on the rights of the target at school; or
- v. materially and substantially disrupts the educational process or the orderly operation of a school.

Cyberbullying, is bullying through the use of technology or electronic devices such as telephones, cell phones, computers, and the Internet. It includes, but is not limited to, email, instant messages, text messages, and Internet postings. See M.G.L. c. 71, § 37O for the legal definition of cyberbullying.

Hostile environment, as defined in M.G.L. c. 71, § 37O, is a situation in which bullying causes the school environment to be permeated with intimidation, ridicule, or insult that is sufficiently severe or pervasive to alter the conditions of a student's education.

Retaliation is any form of intimidation, reprisal, or harassment directed against a student who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying.

Staff includes, but is not limited to, educators, administrators, counselors, school nurses, cafeteria workers, custodians, bus drivers, athletic coaches, advisors to extracurricular activities, support staff, or paraprofessionals.

Target is a student against whom bullying, cyberbullying, or retaliation has been perpetrated.
