

Pleasant Street School Celebrates Reading

- Do you have a favorite author?
- Favorite character?
- Do you love to read books about science?
- Do you know about the solar system and the planets?
- Do you love to read about famous people?
- Do you like to look at cook books and make yummy recipes?

You are invited to submit a “museum project” to be on display in our lobby to celebrate reading. Have fun with this just like Mrs. Ellis did with her science themed books and her “seed museum.”

Projects will be photographed and featured in our newsletter and could include:

- Water cycle diorama
- Junie B. Jones book report
- Poster collage of favorite book titles
and many more great ideas...that you decide!
