In September, 2013, Governor Patrick signed into law Chapter 77 of the Acts of 2013, "An Act Relative to Background Checks." This new law expands what public, private, and parochial schools, including approved private special education schools and child care facilities, already do in conducting state Criminal Offender Record Information (CORI) checks on all employees at least once every three years. Specifically, it requires a fingerprint-based state and national criminal record check for school employees.
