Water Update

September 6, 2017

Dear Parents/Guardians,

The district is continuing to work on resolving the water issue at the Royalston Community School. The school water system has been flushed several times and the equipment has been thoroughly checked.

The cause for the contamination to the water supply is believed to be a faulty back flow valve, which has been replaced. Testing on the new valve shows that it is functioning properly. The district has had the water retested and we are currently waiting on the results. We will contact families once the results are in.

In the interim, we will continue to supply bottled water to students and staff. We will also continue to bring lunches in from the outside. We appreciate everyone's patience as the problem is worked through.

Sincerely,

Darcy Fernandes
Superintendent
Athol-Royalston Regional School District
