5. , 20, 25, 30, , 40, 45

6. 26, 28, 30, , 34, 36,

12	80	20	30
6	60	30	32
15	35	50	38

Give It a Bottom

Directions: Cut out the bottoms of the cupcakes below the dashed line. Glue the bottoms in the correct places to show the differences for the problems below.

1.
$$\begin{array}{r} 79 \\ -23 \\ \hline \end{array}$$

2.
$$\begin{array}{r} 42 \\ -10 \\ \hline \end{array}$$

3.
$$\begin{array}{r} 38 \\ -17 \\ \hline \end{array}$$

4.
$$\begin{array}{r} 65 \\ -32 \\ \hline \end{array}$$

5.
$$\begin{array}{r} 92 \\ -51 \\ \hline \end{array}$$

6.
$$\begin{array}{r} 88 \\ -70 \\ \hline \end{array}$$

7.
$$\begin{array}{r} 25 \\ -13 \\ \hline \end{array}$$

8.
$$\begin{array}{r} 57 \\ -16 \\ \hline \end{array}$$

TWO SCOOPS

Directions: Cut out the cones at the bottom of the page. Glue the cones in the correct places to show the differences for the problems below.

1.
$$\begin{array}{r} 73 \\ -17 \\ \hline \end{array}$$

2.
$$\begin{array}{r} 45 \\ -26 \\ \hline \end{array}$$

3.
$$\begin{array}{r} 38 \\ -29 \\ \hline \end{array}$$

4.
$$\begin{array}{r} 91 \\ -73 \\ \hline \end{array}$$

5.
$$\begin{array}{r} 64 \\ -37 \\ \hline \end{array}$$

6.
$$\begin{array}{r} 57 \\ -18 \\ \hline \end{array}$$

7.
$$\begin{array}{r} 88 \\ -39 \\ \hline \end{array}$$

8.
$$\begin{array}{r} 74 \\ -67 \\ \hline \end{array}$$

The Duck Pond

Directions: Cut out the duck pictures at the bottom of the page. Glue some or all of the ducks in the picture in various places. Make up a math word problem to go with the picture. Solve the problem by showing your number sentence.

Cats

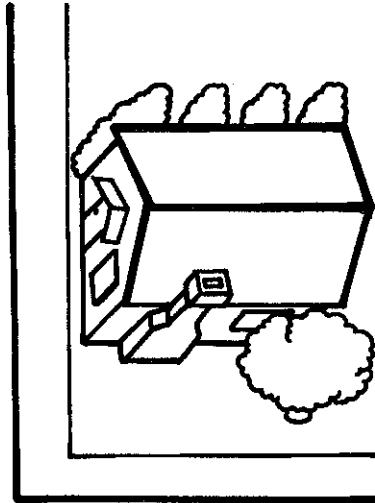

Directions: Cut out the cat pictures at the bottom of the page. Glue some or all of the cats in the picture in various places. Make up a math word problem to go with the picture. Solve the problem by showing your number sentence.

The Neighborhood

Directions: Cut out the car pictures at the bottom of the page. Glue some or all of the cars in the picture in various places. Make up a math word problem to go with the picture. Solve the problem by showing your number sentence.

Making Outfits

Directions: How many outfits can you make with two shirts and two pairs of shorts? That is your job! Figure out how many different outfits you can make with a red shirt, a blue shirt, green shorts, and orange shorts. Begin by coloring the clothing the colors that are written on them. Cut out the clothing at the bottom of the page. Glue the shirts and shorts on the boy below to make different outfits.
