

Potential Scenarios School Year 20-21

What will the 20-21 school year look like; no one at the moment has an answer. It is the district's understanding that at some point, the Commissioner of Education will give guidance. In the interim, the district has created some possible case scenarios that we would like feedback on from the community. To complete an online survey about which scenario you feel would be best for your family, click this link:

https://docs.google.com/forms/d/e/1FAIpQLSc9e7mINKB32_X5IDErU3fNbwopyAozCMoUqZtqohJcsV0tFg/viewform?usp=sf_link

The district will use this information to communicate with the commissioner your thoughts. If the commissioner leaves the districts to make the decision, we will use your feedback to guide our final thoughts. Please feel free to express to us why you like the scenario and any other ideas for possible scenarios. If you prefer, you may call us at 978-249-2400 or send an email to sfemino@arrsd.org as well.

	Scenario
A	Return to school with a regular schedule. Protocols are put in place to keep numbers of students convening in one space at a minimum. Protocols could include lunch in classrooms, entrance, and exit building from different doors by grade, taking students and staff temp, and requiring them to wear masks—extra medical staff on to support health checks. Desks placed further apart etc.
B	Staggered schedule where half the school comes in the morning and half the school comes in the afternoon to ensure social distancing and smaller class sizes. Protocols to keep everyone social distancing would be in place.
C	Staggered schedule where the district would run on a three day in, three-day remote learning scenario for students. Half the class would come in the first three days, and the other students would stay home. The schedule would flip for days 4,5 and 6.
D	All students' grades K-6 would come to school every day with smaller class sizes spread across three buildings instead of two. Students in grades 7-12 would come to school every other week and would have online learning every other week. Protocols to keep everyone social distancing would be in place.
E	Parents choose online learning or in school learning for students. All classes would telecast class for online learning students to take part in. Protocols to keep everyone social distancing would be in place.
F	Return to school with a regular schedule. At times all students would be ordered to be at home by the governor. Students would have classes hosted online when orders were in place. Protocols are put in place to keep numbers of students convening in one space at a minimum.
G	Half the students come in Monday and Tuesday. Wednesday a deep cleaning in all classrooms and teacher prep and PD. Thursday and Friday other half of students come in. Option for online learning: teacher records the lesson and broadcasts to students doing at home learning.
